

## PRESIDENT CRITICIZES UNIONS AND RAILROADS

**CASH MARKET FOR  
FARMERS WOOD IS  
PROVIDED HERE BY  
HOLLAND BLOW CO.**

**Big Plant Does General Business  
In The Manufacture of  
Stoves**

**MILLIONS ARE SHIPPED  
ALL OVER THE NATION**

**Foreign Shipments To Follow  
Development of The Ten-  
nessee River**

(By J. E. Blair)

The Holland-Blow Stave Company was incorporated May 3, 1903. It does a general business in the manufacture and sale of light barrel staves. It is located on the left bank of the Tennessee river, about half a mile west from Bank street, Decatur. A large number of different kinds of barrel staves are made including those for wines, turpentine, oil, vinegar and packing-house products.

According to J. M. Gibson, Secretary and Treasurer, the staves made by the Holland-Blow Company are shipped to New York City, to California, New Jersey, Indiana, Illinois, Florida and the other Southern States.

Some shipments have gone to the continent of South America during the present year. In years past shipments were made to Rotterdam, Hamburg and a number of other European ports. When the Tennessee river comes into its own as one of the world's great water routes, this company expects to load its goods, at the foot of the bluff, on which it is located near the river, and send them to every civilized nation.

"During the world war," said Mr. Gibson, "we were one of the designated preferred shippers by the U. S. government. Seventy-five per cent of our out-put went into containers carrying food and oil for our armies and those of our allies."

"We take all kinds of oak, gum and ash, direct from the stump. Our source of supply is from the woods of Morgan and many other counties of this state. We also have portable mills in Alabama and Mississippi. From these mills, we draw a large part of our unfinished supply timber. We employ both river and rail transportation in securing our supplies."

**Boon To Farmers**

For 19 years the Holland-Blow Company has been a great benefit to the farmers of this section; but especially during the times of depression when it was difficult for them to secure long credit. According to Mr. Gibson some days during this year have witnessed as high as 100 farm wagons unloaded at this plant; and in every instance the farmers got substantial financial returns for their timber.

The timber is sawed by the farmers into stave lengths, and is purchased on a cord basis. Lacking one, there are "57 varieties" of oak lumber and many of them are bought at the Holland-Blow Company; besides ash and red gum are purchased. While the writer was at the plant yesterday some wood merchants came in to mark their wares. And a telegram came in confirming sale and ordering out three car loads of finished staves for the South East. Forty-two car loads of staves were shipped from this concern last month. And including the stock here and at the country mills, there are three million staves now on hand. The number shipped last month was 800,000 or more. Last month over 3-4 million staves were manufactured here.

**How They Make Staves**

Going through the mill with W. H. Ritter, the following facts were stated by him. Oak timber, standard length 36 inches, is taken from the cord wood piles, and by mule teams pulled to the sizing or equalizing saws. This machine cuts the quarter sized timber into exact lengths, then the barrel saws work, and on an average of five staves are veneered off in concave shapes from a quarter from a 14 inch diameter oak log. The staves thus in the rough, are then sun-

(Continued on Page 4)

**TEXAS SENATORIAL RACE IS BITTER**

Left: James E. Ferguson  
Right: Earl B. Mayfield

A bitter contest is being waged in Texas in the run-off primaries for the Democratic nomination to the United States Senate, in which the candidates are State Railroad Commissioner Earl B. Mayfield and James E. Ferguson, who was impeached and removed as Governor in 1917. The primary will be held August 26, the successful candidate to oppose the Republican nominee in November. Personal attacks have marked the campaign. Mayfield, originally a candidate to oppose the Esch-Cummings act and permit each State to fix its own rate, together with no cancellation of the foreign debt, and "100 per cent Americanism," is said to have the backing of the Ku Klux Klan on the latter issue. Ferguson accused Mayfield of being a member of the Klan and of not being sincere in his backing of the Volstead act. Ferguson is running on a platform of opposition to the dry law and in favor of union labor in its fight for the closed shop.

**Interesting Feature Starts Next  
Friday; Hundreds Will Hunt Word**

An entertaining and interesting feature will start next week in the Daily. It is known as the "Missing Word Contest," and consists of a page of advertising, which will be run every Friday, for thirteen consecutive weeks, and which, we believe, will be read each week, by every one of the Daily's large army of readers.

This feature page, of course, offers splendid advantages to the merchants of Albany and Decatur, as an advertising medium, but the "Missing Word Contest" also offers an interesting and profitable proposition to our many readers, for the reason that, by carefully reading each advertisement appearing on that page, every week, they are each given an opportunity to compete for the purses of money, offered as prizes, and go to those who are successful in finding all, or most of the missing words, in the thirteen weeks.

On the contest page, each week, the contest editor will intentionally omit one whole word FROM ONE ADVERTISEMENT ONLY. In order to

find the word, the reader must read every ad on the page, and when a sentence is found from which a word is omitted, the missing word must be supplied. The clue to finding the missing words, each week will be found in the rules, located in the center of the contest page.

Each Wednesday, after the missing word for the previous week has been announced, the original copy, containing this word, and the proof of the advertisement, showing the word in print, will be on display in the Daily office.

The only persons who will be barred from entering this contest, are employees of this office and their families, or any one connected with the working force of this paper.

Business men and their families have the privilege to participate. It will be an interesting and profitable hunt for the elusive word for every member of the family, and besides there will be some nice vacation money for the winners. The contest will start in our issue of Friday August 25th. Watch for it.

**Legionnaires Prepare for Huge  
Time At Annual National Convention**

NEW ORLEANS, Aug. 18.—When members of the American Legion gather in New Orleans next October for their annual national convention they will mingle with the greatest heroes of the world war. Convention officials have announced that all wearers of the congressional medal of honor, the highest American decoration for bravery, have been invited as distinguished guests to the convention and that twenty-two heroes have already accepted the invitation.

The medal of honor men will receive all honors accorded to the most distinguished guests during the five days of the convention. Their expenses to the convention and return will be paid by the Legion. They will be housed in the hotels and will review the convention parade in the stand reserved for distinguished guests.

Only combat soldiers can receive the medal of honor and it is not granted for ordinary bravery displayed in "sticking it out" through a heavy barrage or the storming of an enemy trench. The soldier who obtains this honor is cited "for conspicuous gallantry above and beyond the call of duty in action with the enemy." Thousands of American soldiers performed feats of heroism

which would have won the highest medals from any other Allied power, but the American congressional medal is reserved for super-heroes.

Medal of honor men who have accepted the convention invitation include all ranks from "buck private" to first lieutenant. There are five privates, four corporals, ten sergeants and three lieutenants. Their homes are in all parts of the country.

The honor men who have accepted the New Orleans invitation to date follow:

Sydney G. Gumpertz, New York; Clayton K. Slack, Colon, Mich.; Richmond H. Hilton, Westville, S. C.; Edward R. Talley, Appalachia, Va.; Ralyn Hill, Oregon, Ill.; Harold A. Furlong, Ann Arbor, Mich.; Alan L. Eggers, New York; John L. Parkley, Blairtown, Mo.; Gary E. Foster, Inman, S. C.; Philip C. Katz, San Francisco; John C. Villepique, Camden, S. C.; M. Waldo Hatler, Neosho, Mo.; James C. Dozier, Rock Hill, S. C.; Thomas C. Neibaur, Logan, Utah; Arthur J. Forrest, Hannibal, Mo.; George S. Robb, Salina, Kan.; Thomas A. Pope, Chicago; Samuel Woodfill, Fort Thomas, Ky.; Willie Sandlin, Lawrenceburg, Ky.; Frank J. Bart, West Hoboken, N. J.; Archie A. Peck, Rochester, N. Y.; Joseph B. Adkison, Memphis, Tenn.

**WEATHER**

For Alabama—Partly cloudy tonight and Saturday, no change in temperature.

**BIRTH**

Born to Mr. and Mrs. C. E. Swanson, August 17, a daughter, Gloria Elizabeth.

**RAIL STRIKE PEACE  
PLANS DEBATED BY  
EACH SIDE, NEITHER  
IS WILLING TO TALK**

**Conferees In New York Parley  
Close Mouthed Over  
Development**

**STONE DOESN'T LOOK  
FOR PEACE TODAY**

**All Plans Put Forth Said To  
Have Been Given  
Constituents**

(By Associated Press.)

NEW YORK, Aug. 18.—Warren Stone, head of the organization of locomotive engineers, on leaving the conference here today between the brotherhood men and railway executives, expressed the belief that no definite agreement for the settlement of the shop crafts strike would be reached today.

Stone said that whatever plans they had put forth have been referred by both sides to constituents.

(By International News Service.)

NEW YORK, Aug. 18.—Chiefs of the five train service brotherhoods and the committee representing the railway executives which met today determined if possible to find a means to bring the strike to an end.

L. E. Shepherd, president of the order of railway conductors, broke the supposed agreement not to discuss the conference and said to newspaper men:

"I think the situation looks hopeful," he said. "I feel that a way is being paved toward an agreement."

The question of seniority is again the stumbling block. It is known that the union is holding out for an agreement that will give the strikers seniority over the strike-breakers.

The railway executives are said to have agreed that the strikers must return to work without a seniority agreement. Executives of some roads have declared that the places of the strikers have been filled and they cannot take them back at this time.

It is understood that the unions are pledged to abide by any agreement that the brotherhood leaders make.

Warren S. Stone made this brief statement: "I am optimistic, I am always optimistic."

W. W. Atterbury, vice-president of the Pennsylvania said he was also hopeful.

(By International News Service.)

NEW YORK, Aug. 18.—Progress towards a settlement of the railway strike was believed to have been made here today at a conference of railway executives and brotherhood leaders. The conference recessed at 12:45 after a session lasting two hours and a half to permit the brotherhood leaders to hold a conference with other leaders of the striking craftsmen in session in another part of the city.

(By International News Service.)

MEMPHIS, Aug. 18.—Two railway shopworkers were in a hospital here today, one of them in a critical condition as a result of beating they received last night.

The beaten men said they were taken before a tribunal, given a hearing and sentenced to be beaten. They charged their attackers were striking men.

**Stone Is Hopeful  
Of a Settlement  
Of Rail Walkout**

(By Associated Press.)

NEW YORK, Aug. 18.—The strike of railway craftsmen will be settled here, Warren S. Stone, chief of the Brotherhood of Railway Engineers, declared today. The committee of five railway brotherhoods finished several informal conferences before meeting the rail executives to continue the work of mediation.

**British Chancellor  
Fights Carpenter**

Georges Carpentier, whose handsome face stopped Jack Dempsey's mighty ring at Jersey City, has lost another decision—this time to Lord Chancellor Birkenhead of England, "Keeper of King George's Conscience." The results of the fight are recorded in moving picture films, and His Lordship has the films. The bout was staged at Dieppe, France, and as Lord Chancellor Birkenhead returned, immediately to England to attend a meeting of the Reparations Commission there will be no return engagement. The films won't be shown either—Lord Birkenhead objected to his daughter, Eleanor, joining the ranks of film players with Carpentier, and he forced the fighter to give up the pictures.

**MAKE PLANS SOON  
FOR CELEBRATION  
HERE LABOR DAY**

The following official statement was issued today by H. C. Hutchinson, chairman of the press committee of the federated shop crafts.

Following a hymn sung by Messrs Hunter, Crane, McCullough and Pickens, the rail strikers were led in prayer by W. R. McCluskey, at their meeting of the day held at the Princess theatre. The chairman announced that S. E. Roper would be away until Monday morning. Announcement was made of a meeting tonight of the executive council of the Albany-Decatur Central Labor Union. Statement was made that plans were on foot for the annual Labor Day celebration.

The publicity committee read all the newspaper reports available of the morning, concerning the strike situation. H. C. Hutchinson announced that a moving picture show would be given soon for the benefit of the strike fund. Frank Lewis' report for the Federated Committee was heartily cheered.

A standing vote of thanks was given certain farmers who had donated a beef, some syrup, corn and potatoes. Mr. Lewis stated that the beef had been sold at the market price and the money turned into the strike fund. On motion, it was directed that an open letter of thanks be sent to firms and individuals who had recently contributed to the strike fund.

L. E. Toon spoke enthusiastically as did D. C. Jones. Mr. Jones said among other things, that a more careful study of the labor movement should be made. Said in the year 1621, the labor movement began in this nation, and he declared "it is here to stay." Rev. T. B. Harwell offered the closing prayer.

(Signed) H. C. HUTCHINSON.

**BOARD ADJOURNS**

The county board of revenue completed their labors Thursday evening and adjourned. The board during the four days of meeting went over all the affairs of the county in which they had supervision, spending considerable time in looking after the many road projects now being carried forward in the county.

**MORAL RESPONSIBILITY PUT ON BOTH  
FOR CRISIS, BUT EXECUTIVE FAILS TO  
RECOMMEND SOLUTION OF SITUATION**

**"Full Story" Of Twin Strikes Told to Congress by President, But Asks That  
Rail Legislation Be  
Delayed**

(By International News Service.)

WASHINGTON, Aug. 18.—Under the shadow of a great impending industrial crisis President Harding went to congress today told the "full story" of the twin coal and rail strikes and asked that legislative steps be taken to safeguard against a repetition of it. In the coal situation the President recommended:

1. That he be given authority to create a national coal commission to investigate the whole industry.

2. That congress consider at once the creation of a temporary national coal agency with the needed capital to purchase, sell and distribute coal which is carried in interstate commerce.

In the railroad strike the President did not recommend any legislation, except insofar as it related to the protection of alien workmen.

He severely criticized both sides in the rail dispute—carriers and unions. He described the rail labor board as entirely inadequate to deal with the occasion, declared it would have to be strengthened and condemned in almost unprecedentedly strong terms the acts of violence all the way from the Herrin, Ill., massacre to the desertion of trains at desert terminal points in Arizona.

"It is not my thought," President Harding said, "to ask congress to deal with the fundamental questions (threatening the powers of the labor board) at this time."

"No hasty action would contribute to solution of the present critical situation. There are statutes forbidding conspiracy to hinder interstate commerce. It is my intention to enforce these laws, civil and criminal against all offenders alike."

While the President asked no action of congress at this time, he affirmed the federal government's determination to maintain transportation at any cost.

"I am resolved," he said, "to use all the power of the government to maintain transportation and sustain the right of men to work."

This was interpreted as constituting a flat assertion that if the unions quit work on the railroads, the federal government will afford every protection to the railroad management in their efforts to keep trains moving.

The President's condemnation of both employes and unions in both coal and rail industries was probably the most severe ever addressed by a chief executive to congress.

The rail executives, he criticized, for their "hardboiled" attitude and rendered a thinly veiled warning that there is a "union busting" campaign in progress in some quarters.

"The government," he asserted, "has no sympathy or approval for this element of discord in the rank of industry."

The railway unions were harshly criticized for their "unyielding attitude" and most particularly for their desertion of trains at desert terminal points, causing discomfort to travelers.

It was about the Herrin, Ill., massacre, however, that the President waxed most indignant. He handled it without gloves and he expressed the wish that federal courts be empowered to go into situations such as Herrin and mete out justice.

"In that butchery of human beings, wrought in madness, it is alleged that two aliens were murdered," the President said. "This act adds to the outraged sense of American justice, the humiliation which lies in the federal government's confessed lack of authority to punish that crime."

"Had it happened in any other country," the President said, "We would

have pitied the civilization that allowed it."

Justice, he declared, had failed in Illinois and there would always be a blot on the national shield because of Herrin, Illinois.

The President's appraisal of the present industrial situation as a result of the weeks of coal and rail strikes was that it is most acute.

On the one hand he pointed to the nation's empty coal bins and on the other to the slow strangulation of transportation by impaired equipment on the railroads. He recounted, at length, how sporadic lawlessness and intimidation kept men away from work.

"Under these conditions of intimidation," he declared, "there has been such a lack of care of motive power that the deterioration of locomotives and non-compliance with safety requirements of the law are threatening the breakdown of transportation."

"Neither the railroads nor the unions may escape moral responsibility for this situation," he said.

The whole tenor of his address was a plea that congress must take steps to prevent a recurrence of the present conditions.

"There can be no liberty and democracy maintained in America," he asserted, "unless there is the same recognition given the right to work as there is the right to quit work. However, legal safeguarding against like menaces in the future must be worked out when no passions sway, when no prejudices influence and when the problem may be appraised and authority beyond that of the government itself."

Meanwhile the President indicated the government is prepared to insure maintenance of transportation, whatever comes.

**Committee Thanks  
People for Gifts**

To members of the Woodmen of the World, of the Maches, Decatur Lodge No. 52, of Odd Fellows, Certain Farmers near Hanceville, Local L. & N. Switchmen, Local L. & N. Railway Clerks Union, Brotherhood of Locomotive Engineers and Firemen, and the many individuals and firms too numerous to mention: Greeting, I am directed by a rising vote of the local striking shopmen and their associates, in their meeting at the Princess Theatre this morning, to extend to you and to all our friends whether mentioned above or not, our gratitude, and heartfelt thanks for the generous donations you have made and especially do I wish to thank you in behalf of all my associates for the many kind words of endorsement and encouragement that accompanied the gifts. "The gift without the giver is vain," so we close by again thanking you for your generous endorsement of our cause.

By the direction of the mass meeting of local strikers, and in behalf of the Federated committee,

T. FRANK LEWIS,  
Chairman of the Federated Committee

**Norris Dead As  
Result of Attack**

(By Associated Press.)

BALTIMORE, Aug. 18.—William B. Norris, secretary treasurer of the Hicks, Tase and Norris Builders, Inc., was shot to death today at Park and Madison Avenues and Frederick Kuehe, book keeper was beaten into insensibility by unidentified robbers and the company's payroll was robbed of approximately seven thousand dollars.

## WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

### A PROGRAM OF PROGRESS SHOULD BE CARRIED OUT.

An authoritative business review just made public, shows among other things that a building program is due to be carried out in New York city that will keep the building trades busy for a period of two years. What is happening in New York is of no special interest; except that what is expected there in the way of building, may be looked forward to by such cities as ours except of course on a much smaller scale. An investigation of the local building program would doubtless reveal the fact that as much as two years work is in sight here for the builders of houses. Just at present our building efforts are largely confined to the erection of residences; but with the right encouragement, factories, business houses, and concrete buildings would be erected. A real honest to goodness building program should be carried out and those able to take the lead in such an enterprise. It is unthinkable that a community as favorable located as ours can remain at a standstill as regards business development and enterprise. But every thing must have a start, every great undertaking must have leaders. Building materials are cheaper now than we can hope for in the future. In the spring buildings could have been erected a trifle cheaper than now, it is true, but all prices are very moderate now to what we may expect when the real boom in American business sets in. Unless the country deliberately decides to keep its seat and make no progress whatsoever, there's no reason why we shall not soon enter upon a boom period. The problem of the near future will be to get enough materials delivered to carry out a large building program. But those who get materials bought first will be the first to profit. Prosperity is only at arms length, the thing to do is to reach out and grasp it. Like the fabled spirit of opportunity, prosperity must be grasped by the forelock and led forward. It is impossible to secure and hold prosperity in any other way than by taking a "forward hold" on it. The spirit of opportunity was represented in the fable as having hair only on its forehead, and as completely bald at back of its head. The teaching being that once opportunity passes, there is next to no way to grasp and hold it. Prosperity is possessed only as seize "a coming"; if we wait until it is "going" there is next to no way to stop it and draw it back again. Despite disturbed conditions, business was never on a more solid basis. It is not at a high level just now, but the foundation for the future is secure. All we have to do is to make the effort, and before the year is out, the year 1922 will be found to have been a fairly good business year. All this is baring of course a shortage of coal and long continued dislocation in transportation. Because "big rows" are spilling the beans of every body just at present is no sufficient reason for giving up or flinching with failure! We have the same demands upon us now as we had in more optimistic times. We should seek to meet them, with every energy and with every resource at our command.

### THE LAND OF SOMEWHERE.

Humanity has ever groped for that which it did not possess, and longed for that realm they did not attain. The other country with its golden promises, always alluring to the mind of man, has caught his attention, and riveted its claims upon him in a way which bound him with fetters. Travelers have set out on long journeys for a distant land, sure of the fact that when they reached their destination, they would have arrived at the golden spot of opportunity, and that there they would abide and make for themselves that comfortable competency, which is so much desired by a large majority of the children of men. They arrived in due time to the end of their destination, only to find that "the milk and honey country" was just over in the bounds of the next parish or county. A funny thing in this connection is, that when he arrived at the end of his journey, he found others there who were preparing to go to the land from whence he came.

The spirit of man since time immemorial has been of the roving disposition; seeking and longing for new surroundings; the vision craving new scenes, and willing to leave the friends who have proven tried and true behind, and search for others of doubtful sincerity, so great is this disposition to go.

We learn from dear experience that changes are costly and in many instances far from satisfactory. It is just a mirage on the ocean of life; just another instance of the green hills which appear far away, only to find upon reaching their summit, that they are a barren rock waste, holding within their bounds no enchantment.

The writer once saw a picture in which several small children were picking berries. All of them but one was rushing here and there picking a few from this bush then from another. The one was

bush, the picture showed his bucketfull. The moral, stick to your bush, is not without significance.

### FILM STUNT CASUALTIES.

Film fans are familiar with the "stunt stuff" that is occasionally shown on the screen. It takes all forms, the heroine leaping over a cliff to escape a pursuing villain, to be caught by a friendly bush on the side of other precipice; the heroine boarding a moving train from an airplane, or an automobile, or by springing from a telegraph pole; the villain driving a car containing the tightly bound hero over a steep bank, while he leaps out at the last moment of safety. These are but a few instances. The scenario writers and the directors are constantly at work devising "thrills." The writers of serials are especially fertile in situation that bring the back hair erect and cause chills to creep over the spines of beholders.

Some of the people out in front of the screen do not like to see the actual near-horrors and close their eyes when the crisis comes. They know perfectly well, of course, that everything has worked out all right in the action in front of the camera, that the substitute athletes have made their leaps correctly, that the motor car has not actually plunged to the bottom of the abyss, that the figure seen rolling down the cliff sides or plunging into the sea are merely stuffed dummies. They realize that if anything untoward had happened the film would not have been shown. Still, they often shut their eyes and wait for the turn of the crisis.

Possibly some of these film fans like to see the pictures of this kind because they know that actually dangerous to the performers, whether even the most carefully safeguarded "stunts" are principals or substitutes, and that back of a smoothly running film may lie a record of casualties. Nobody knows how many substitutes have been hurt. It is not a part of the game to record the cost of a thriller film in terms of lives and limbs. Yet now and then the news of the accidents gets printed.

A case has just occurred in New York that shows that all is not easy or safe on the acting side of the film. A young man, who has specialized in dangerous substitute work, was impersonating a heroine who, to escape from the clutches of the villain, springs from the top of a bus to the girder of an elevated structure. Only a trained athlete could do such a stunt, and so the heroine was not expected to do it. But even the trained athlete slipped. His hand hold broke and he fell and fractured his skull. He died soon afterward. "Stunt stuff" is really too costly to be encouraged. The public does not need thrills of this sort, and the movies would be better if they were cut out. Will Hays may find in this a line of valuable corrective administration.—From the Washington Star.

### "FIGHTING MIKE" AARONSOHN

There attended the recent national convention of the Disabled American Veterans of the World War at San Francisco, Michael Aaronsohn, national chaplain, who delivered the opening prayer, which deserves more than a passing notice. As the Disabled American's Weekly said of it, "no stronger editorial could have been written than that contained in it." The prayer is as follows:

"Our Father, our God, O Rock of our Salvation. To Thee we lift up our hearts.

"We praise Thee that Thou hast not suffered our feet to stumble and in loving kindness Thou hast guided our steps aright to this beautiful gateway of industry and commerce. We praise Thee that Thou hast granted us the strength and the power to gather once again—hosts of men in peace.

"We pray that the souls of the departed sons and daughters of America are enjoying the ineffable bliss—the joy of beholding Thy beauty. We pray that Thou wilt give balm to the hearts of the widowed and the orphaned and suffer no evil to overtake them.

"Thou art the healer of all flesh, the fountain of health, we beseech Thee to send Thine angels to minister, to soothe, to strengthen our yet feeble comrades who seek to take their place along the blessed among us.

"We implore Thee that Thou wilt bless our country and our nation. More than they who have not tasted the bitterness of affliction, we yearn for peace. Would that the country we served might become a messenger of peace to the nations of the earth.

"We ask that Thou wilt fill the hearts of the leaders and executives with Thy spirit. Let Thy spirit rest upon them—the spirit of wisdom and understanding, the spirit of counsel and might, the spirit of knowledge and the fear of the Lord. Strengthen the bonds of friendship and fellowship between all the inhabitants of our land.

"I pray Thee that Thou wilt be with us who are the chosen ones of the myriads of witnesses of the loyalty and the devotion of America. May our love for one another be our crown of glory and our armour of strength.

"May the words of our mouth and the meditations of our heart be acceptable before Thee, O Lord, our Strength and our Redeemer.

"We ask these things of Thee in Thy Name, our Father, our God and the Rock of our Salvation.—Amen."—Montgomery Journal.

Henry Ford says: It is either guilty or prominent. Mighty pointed answer Henry, but, you was striking mighty close to facts when you said those words.

Bulgarians, butter milk drinking and long life all go together. We decline longevity, with thanks if to have it means drinking butter milk and being a Bulgarian.

The new radio sets have solved one difficult problem—what to give newly weds on their wedding day.

There is surplus money in the United States treasury just at this time; but the enemies of the Ford bid are turning a deaf ear to the information.

Instead of a swing toward politicians, they should swing amid air.

The very worst kind of damnation is procrastination.

## Kilby Once More Postpones Noose To Future Date

MONTGOMERY, ALA., Aug. 18.—(Special)—Charlie Stoudemire, negro, sentenced to be hanged in Jefferson county, and Ephraim High, negro, sentenced to be hanged in Bibb county, Friday were granted respites by Governor Kilby Thursday afternoon. Stoudemire's sentence was held up for three weeks, while the sentence imposed on High will not be executed until two weeks have expired.

Governor Kilby desired further time to make an investigation of the cases. He knew nothing of the High case until an appeal for the commutation of the sentence was received Thursday morning. High was convicted of high way robbery, it being charged that he and another negro held up J. M. Arnold, white, and relieved him of his money. The petition for commutation stated that the other negro had been acquitted and the general opinion was that the other negro shifted the blame on High, who is supposed to be weak-minded.

Stoudemire was convicted of the murder of James W. McDowell, white employe of a Birmingham bottling plant. He has already been granted two respites in order that the board of pardons might make a recommendation. The board this week voted unanimously against commutation. However, Governor Kilby granted the third respite so he might read the complete record of Stoudemire's case.

## Gurley Home In Florette Section Destroyed by Fire

County Commissioner Jim G. Gurley, who resides near Florette in the eastern section of the county, lost his home and contents by fire at an early hour Thursday evening. Mr. Gurley had spent the day in the Twin Cities attending a session of the board of revenue. Returning home late in the afternoon, the family attended services at Blue Spring church where a protracted meeting was in progress. The church is about two miles from the home. On their way back they noticed the light from a fire, and upon coming nearer the spot discovered to their dismay that it was their home in flames. The house and contents was a complete loss. The origin of the fire is unknown, and is partially covered by insurance. The house was a splendid frame structure, and will cost several thousand dollars to replace.

Later investigations on the part of Mr. Gurley conveyed the impression that the fire was of incendiary origin. Bloodhounds were secured at Courtland early today and rushed to the scene of the fire.

## Weevil Shows Big Work In Southeast

MONTGOMERY, ALA., Aug. 18.—(Special)—Moderate progress has been made by all crops in the southeastern states except cotton according to the mid-monthly crop report received by the state department of agriculture today. The new boll weevil territory has suffered greatly from this pest, but a fair crop of cotton bolls may be found in the south at this time.

Corn was reported as having matured in the southern half of the belt, but it is still below the average. Moderate improvement was found throughout the belt except in the drouth area of Tennessee and eastern North Carolina.

Cotton is showing the lack of fertilizer and boll weevil damage was reported as universal from North Carolina to Mobile. Picking is in progress in more than one-third of the cotton area.

The report on conditions covered Alabama, Tennessee, North Carolina, South Carolina, Georgia and Florida.

**Wavy Hair**

No matter how coarse and curly your hair is now, you can have long, straight, wavy hair by using

**Wavine**

HAIR DRESSING

No hot comb necessary. Just wash your hair with Wavine Shampoo and Wavine Soap, then apply Wavine. It stops falling hair, removes dandruff and is guaranteed to make the hair soft and silky and easy to comb.

Cures Malaria, Chills and Fever,  
Dengue or Bilious Fever. It  
kills the germs.

## Is Money Ever "Spent" for Advertising?

A young and energetic executive took hold of a fine old retail business in New York.

"What this business needs," he told himself, "is a place in the mind of the public."

And deliberately he set out to sacrifice the greater volume of his profits and invest the sacrifice into building of good will.

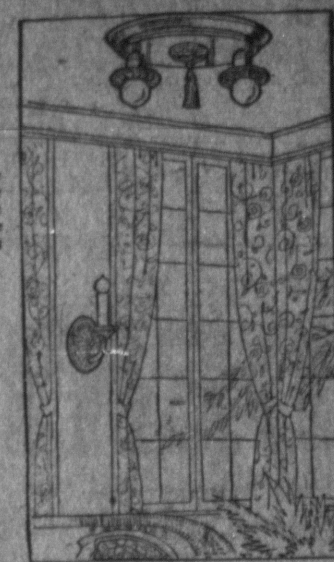

He did. And to this old business, advertising was the breath of life.

For six months had not passed before the business had grown so that advertising cost was a smaller percentage than ever it had been, and, because of a larger volume, the shop effected economies and gave far superior service.

That was five years ago. Today a certain percentage is spent, or supposed to be spent for advertising. But as fast as the appropriation is spent, the more the business increases; and the more that the business increases, the smaller the percentage becomes.

Is money ever "spent" for advertising?

(Published by The Kiwanis Magazine and The Albany-Decatur Daily in co-operation with The American Association of Advertising Agencies.)

Ask to see these models. The center fixture is No. 19176, the wall bracket is No. 19169.

A RICH ivory tone and delicate handcoloring set these beautiful fixtures apart from the ordinary lighting equipment. Simply and unobtrusively each fits into the whole harmonious plan of interior decoration. You'll enjoy seeing them—we're ready any time.

daughter, Helen, have returned from  
a visit to relatives in Russellville.

Judge John C. Eyster is in Cullman  
today on business.

J. F. Herring, of Bashams Chapel,  
is in Albany today.

## Capital Wishes Franchise Granted

MONTGOMERY, ALA., Aug. 18.—  
(Special)—Montgomery desires a  
team in the Southern League and  
ways and means of obtaining a fran-  
chise will be discussed at a meeting  
of citizens Monday night, the meeting  
having been called today by David  
W. Crossland, probate judge.

Since the construction of Cranton  
Bowl was completed great interest  
has been shown in athletics and the  
chamber of commerce and other civic  
organizations desire to make Mont-  
gomery the center of athletic activi-  
ties in the south.

Montgomery held a franchise in the  
Southern League for many years, sur-  
rendering it to Little Rock about ten  
years ago. Since that time the only  
baseball the city has had has been  
furnished by a team in the South Ath-  
letic league one season and semi-  
professional teams.

Original Weights and Measures.  
Weights were originally taken from  
grains of wheat. The Jews ascribed  
weights and measures to Cain, the  
Egyptians to Iuth and the Greeks to  
Hermes. An interesting series of cop-  
per weights (now in the British mu-  
seum), admirably modeled in the form  
of lions, 16 in number, and diminish-  
ing in regular graduation from one  
foot to one inch in length, was dis-  
covered by Sir Austen Henry Layard,  
the noted English archeologist, in the  
northwest palace at Nimrud (pointed  
out by tradition as the site of Nineveh).

### Not Guilty.

A Chicago professor is authority for  
the statement that 90 per cent of the  
women in the United States are home-  
ly. Well, what about it? We defy  
any person to find one woman in this  
country who does not secretly believe  
that she belongs to the ten per cent.

## NEWS OF MOULTON AND LAWRENCE COUNTY

MOULTON, ALA., Aug. 18.—(Spe-  
cial)—The Lawrence County Farm  
Bureau met at Moulton Tuesday af-  
ternoon with an attendance of mem-  
bers and others to the number of  
about fifty of interested men; R. J.  
Morgan, File Agent for the bureau  
with headquarters at Montgomery  
was present and presented briefly a  
history of the movement before tak-  
ing up the present progress of the  
movement towards marketing cotton;  
among the farmers present were Hood  
Harris of near Courtland, Russell  
Preuit, of near Town Creek; the Tay-  
lor brothers from Wheeler, W. B. Bond  
from Caddo, Marshall Mackey, E. Q.  
Burch and Marlin Craig of Landers-  
ville, and representative men from all  
sections of the county; Cole Savage  
county agent and Glenn E. Riddell,  
Vocational Agriculture teacher at  
Town Creek were leaders in the work  
of the meeting.

The Lawrence County High School  
is to open, Thursday, August 31, ac-  
cording to announcements made by  
the principal, J. B. Gibbons, who says  
the prospect for a large enrollment is  
brighter than ever before; already  
numbers of young men and young  
women are inquiring for boarding  
places. The boarding proposition  
will not be so difficult as in the  
past.

Many plans are made for making the  
year a successful one. Prin. J. B.  
Gibbons is to attend a meeting of  
high school principals in Montgomery  
early in the coming week. The pub-  
lic school is to open on Monday Sept.  
4 with Miss Lula Almon principal  
and Miss Lattie Roberts and Etta  
Lee assistants.

The Radcliffe Chautauqua is sched-  
uled for Moulton for three or four  
days beginning Saturday August 26;  
tickets are being sold by a committee  
and other committees are at work to  
make this one of the best seasons ever  
had in Moulton.

The end of the summer session at  
the Florence State Normal sends home  
to Moulton a number of young teach-  
ers for a few weeks vacation before  
the autumn sessions; among them are  
Misses Bettie Lou Windham, Lucy  
Greenhaw, Mary Cecil Judy, Willie  
and Elva Perry, Nadine and Jane  
Shelton, Blanche and Grace Ellis, Ad-  
die and Buford Moles and the young  
men, Walter Greenhaw and Roy  
Burks. These young folk have been  
in Florence since either early in  
March or the first of June and each  
comes with that much credit for him-  
self or herself towards a normal di-  
ploma.

County court and a regular meeting  
of Lawrence County Board of Revenue  
Monday brought a large attendance  
of farmers and others from various  
parts of the county to Moulton; sev-  
eral minor cases came up before the  
court and numerous petitions and re-  
quests were made and many granted  
in the meeting of the county commis-  
sioners.

Five adult schools either are now  
or have been running in the county  
for the past several weeks; the one  
at the Mount Moriah school with an  
enrollment of about sixty has been  
the largest but good work is being  
done at the other points, Masterson,  
Shackelford, Chalybeate and Oak  
Grove; the attendance has been good  
and interest maintained not only by  
the efforts of the teachers but also  
by the visits from leaders in the  
county.

A much needed rain came in and  
around Moulton Tuesday but it did  
not extend far any direction; crops  
over the county are suffering consid-  
erably.

Misses Ruby Sanderson of Court-  
land and Audrey Ennis of Hillsboro,  
are guests of Mrs. Eva Farley this  
week.

Miss Lula Almon and one of her  
little nephews is spending a few days  
with relatives in Florence this week.

Mrs. Bennet Smith and daughters  
Misses Myrtle and Dorothy, of Bir-  
mingham are guests of Dr. and Mrs.  
Jas. Masterson.

### MARKET

The ladies of the First Christian  
Church will have a market at 2 p. m.  
Saturday August 17, 18.—Adv.

Kumpe Jones and his sisters, Mary  
andand Electra, of Russellville, are  
sending the week with their aunt,  
Mrs. Sue Irwin.

Robert Byars and two of his little  
girls went to Decatur Monday; the in-  
fant child of Mr. Byars is recovering  
nicely from a serious fall.

Mrs. Luther Aldridge of Belle Mina  
is guest of her sister, Mrs. J. D. L.  
Byars, west of Town.

Dr. W. P. Wilkes closed an interest-  
ing meeting at the Baptist church  
Sunday last and returned to his home  
in Albany.

Tom McCormick, of Athens, was in  
Moulton, for a short time Monday af-  
ternoon; he is visiting his sisters in  
the county.

Joe Hardin from below Hillsboro  
was in Moulton on business Monday.

## MORGAN SPEAKS ON COTTON POOL PLAN

A fair sized audience greeted offi-  
cials of the Alabama cotton pool as-  
sociation at Hartselle Thursday, at a  
meeting held in the city hall at 11  
o'clock. Among the prominent men  
connected with the plan, and who  
made addresses, was Ralph J. Morgan,  
assistant secretary-manager of the  
state farm bureau. Mr. Morgan gave  
a comprehensive address, outlining the  
complete plan of the association, and  
reviewed the bale of cotton from the  
time it was taken to the gin, thence  
to the warehouse, insurance, etc.

Immediately after this meeting, a  
meeting was called composed of the  
board of directors of the Morgan coun-  
ty farm bureau. Committees were  
appointed to take active charge of the  
cotton listed in the plan for this  
county. The following committee  
appointed as the Membership and sign  
up committee: L. J. Hill, W. B. Ed-  
mondson and C. C. Terry. There was  
much interest manifested in all the  
details as outlined by the speakers,  
and it is quite certain that every ef-  
fort will be made on the part of all  
interested, either as officials or mem-  
bers of the association, to see that  
the very best results possible will  
accrue to its membership.

## Dead Man Comes To Life; Insurance Man Identifies Him

(By Associated Press.)  
GADSDEN, Aug. 18.—Elwell All-  
britton, former automobile dealer  
here, reported drowned two years ago  
in an automobile accident in the Ten-  
nessee river has been identified at  
Hoquiam Washington by D. D. Ed-  
wards, Gadsden insurance agent who  
is said to have written almost one  
hundred and five thousand dollars  
worth of insurance on Allbritton's  
life, according to advices reaching  
county authorities to suit over pay-  
ment of insurance which is now in  
court.

## A TRUE RAT STORY

Auburntown, Tenn., 6-25-22.  
Dear Sir: Mr. Robert T. Kennel of  
Auburntown, Tenn., came in our store  
the other day and wanted something to  
kill rats, so I sold him a box Stearns  
Rat Paste. And he put some paste on  
six blouses that night and the next morn-  
ing he found fifty-four big rats. And the  
second night he put out four more bla-  
sues with paste on them, and the second  
morning he found seventeen more rats,  
making a total of seventy-one rats in  
two nights, and there were lots more  
that he did not find.  
This is some big rat tale, but never-  
theless, it is no "Just thought" would  
write to let you know that your rat paste  
is good.  
Respectfully, KENNEDY BROTHERS.  
Buy a 35c Box Today  
Enough to Kill 50 to 100 Rats or More  
Don't waste time trying to kill these pests  
with poisons, liquids and other experimental  
preparations. Ready for Use—Better than  
Traps. Drug and General Stores sell

## Seaplane Begins Second Leg Journey

(By Associated Press.)  
ELIZABETH CITY, N. C., Aug. 18. Despite unfavorable weather conditions the seaplane, Sampaio Correia, flying from New York to Rio de Janeiro left Manteo on the second leg of the journey to the South American continent. Lieutenant Walter Hinton, pilot said that he expected to reach Miami, Florida before nightfall.

### SECRET OF A GOOD DISPOSITION

A woman who carefully safeguards her health benefits her disposition. She will be happy and attractive to all. The world unfortunately is filled with sweet women who are unhappy because they are held back from usefulness by troubles so common among them. Frequent and nervousness rapidly destroy good dispositions. Sickly, all-worn-out women cannot make happy homes. Lydia E. Pinkham's Vegetable Compound is a safeguard of women's health. This is clearly proven by the many letters we are continually publishing in this paper, from women who have been restored to health and happiness by its use after years of suffering. Why don't you try it? Adv.

### A Letter

Chicago, Aug. 5, 1922.  
Mr. S. A. Moses,  
217 Johnston St.  
Albany, Ala.  
My dear Moses:  
During the past year we have been printing in our monthly paper, "The Hardy Messenger" what we have called an "Old Timer's Column" with letters from those who have dealt with us for a very considerable period. We are writing you because of the fact that it has been called to our attention that you have continuously dealt with us for considerably over thirty years. We take pride in this because it speaks well for our service as to Accuracy, Quality and Promptness particularly because your orders to us have always been for the highest class of goods that we carry and manufacture. We want, at this time, to thank you for your continued patronage, and to express the hope that you will be with us for many years to come. Yours very truly,  
F. A. HARDY & COMPANY,  
Edward E. Swadener,  
Vice-President.

## HURT ALL OVER

Texas Lady Couldn't Sit, Stand or Lie With Any Comfort. Says "Cardui Did World of Good."

Bartlett, Texas.—Mrs. Nannie Messer, of Route 3, this place, states: "About three years ago I was in a very critical condition. I had been suffering for some time. To tell how I hurt would be impossible. "I just hurt all over. I couldn't sit, stand or lay with any comfort, my back, sides and head all gave me a great deal of trouble. "I was especially bothered with a light swimming in my head. My people were very uneasy about me and sent me to my relatives to see if a change would do me any good. "I stopped at a sister-in-law's and she being a great believer in Cardui, asked me why I didn't use it. I decided to try it. "I had only taken a few doses when I felt it would do me good. This gave hopes and I used it right along and it did me just a world of good, since which time I have never ceased to praise Cardui. "Cardui is for simple female complaints and womanly pains and has been found to benefit in thousands of such cases when not due to malformation or that do not require surgical treatment. Try it. NC-126a

## New Telephone Directory Goes To Press Sept. 15

If you are moving this season be sure and make arrangements for service at the new location in order to have your correct number listed in the new directory.

We should have at least two weeks' notice.

Now is the time to arrange for advertising in the directory and get your share of the fall business.

The space is limited. The rates are reasonable.

Call the Manager today.

SOUTHERN BELL TELEPHONE  
AND TELEGRAPH COMPANY

4-56 Eyster Building

## DISTRICT MEETING OF PYTHIANS WILL BE CONVENED HERE

A district meeting of Alabama Knights of Pythias lodges north of Birmingham will be held in Decatur Monday, August 21, it was announced today by the publicity committee for the meeting. The Tennessee Valley chain of counties comprise the first Pythian district. Reports will be received at the meeting on all Pythian endeavor and plans will be laid for the new year. Big delegations are expected to attend the session from Huntsville, Hartselle, Falkville, Cullman, Russellville, Tusculum and other North Alabama communities. T. M. Dix, of Decatur, grand chancellor of the state lodge, will preside at the meeting here and other grand lodge officers are expected to be present. The session will be opened formally at 3 o'clock and the night session will be opened at 8 o'clock. At 7 visitors in the K. of P. hall by the local lodge. The committees in charge of arrangements today requested the attendance of all local members of the order.

## Market for Farmers Wood Is Provided

(Continued from Page One)  
dried for 30 days, then kiln dried with steam for 10 days. The bone dry staves are then planed on the convex side and later jointed by six jointing machines capacity 4,000 staves a day each or 24,000 for all six machines in one day. An operator then classes the finished staves into barrel sets containing an average of 18 staves each. The next and last job is to store the staves into freight cars or in store houses on the grounds. The Holland-Blow company has its own water supply direct from the river for manufacturing purposes, and it is also connected with the city water supply. Mr. Gibson has just returned from a visit to New York state where he was the guest of V. J. Blow, the president of the company. Some idea of the importance of the stave industry, is gathered when it is known, that staves furnish the containers for our oil vinegar molasses, sugar and all packing house products; to say nothing of the turpentine industry which alone amounts to 40 to 50 million dollars per annum.

## Southern Getting Skilled Laborers

(By Associated Press.)  
WASHINGTON, Aug. 18.—President Harrison of the Southern Railway system announced here today that his road was meeting with success in the recruiting of skilled laborers to meet the present rail crisis. He said that most of the labor was being obtained from outside the system's territory.

### \$8,000 DAMAGES

The case of Gant vs the Southern railroad, which was tried in the circuit court Thursday, and which went to the jury Thursday morning, was decided in favor of the plaintiff. \$8,000 was awarded after some time spent in deliberating.

## CONFERENCE WHIPS MINE WAGES SCALE INTO SHAPE TODAY

(By International News Service.)  
PHILADELPHIA, Aug. 18.—With preliminaries out of the way anthracite miners and operators settled down today to the serious task of whipping into shape the contract for the ending of the twenty week coal strike. Prospects were bright for peace and settlement of the hard coal differences may be worked out before nightfall. Peace is to be made on a give and take basis. Leaders of the men and operators went to work early today moulding a program for presentation at this afternoon's conference, scheduled to be held at 3 o'clock. In the "feeling out" session yesterday there was no plan offered. Miners have not changed their position. Nothing less than a two year agreement, dating from April 1, last will be acceptable to them. They will readily accept the old scale for three or four years if they can get it. Operators are against any proposition that would bring only temporary peace. The contract will be written for three years, it is thought.

(By International News Service.)  
PITTSBURGH, Aug. 18.—There was another rush of operators in the Pittsburgh district ready to sign contracts here today. When union headquarters opened this morning, one hundred and six operators had signed. The big break in the membership of the Pittsburgh Coal producers association was expected to come to a head tomorrow.

## Work Progresses On The Bee Line

Work of the Bee Line highway from the corporation line of Albany South has progressed to a point to Flint station. The roadway this length has been swept, holes filled and the tar applied to this point. It is estimated that with good weather prevailing, it will require two weeks to finish the job. Detours are still being made from Flint via Austinville. Later when the work progresses to a point beyond Flint, it will be necessary to detour via of Priceville. Until rain comes in sufficient quantities to make the ground very soft, the road from Hartselle to Priceville to Albany-Decatur is fairly good and can be made without trouble.

## Brandon May Get In Public Service

MONTGOMERY, ALA., Aug. 18.—(Special)—S. P. Gaillard, the only member of the public service commission in Montgomery today, declined to discuss a report that John Brandon, brother of Judge W. W. Brandon, would be elected secretary of the public service commission as the successor of Hugh White, who was discharged by the associate commissioners last week. Mr. Gaillard said the matter had not been discussed with the other commissioners and he did not care to make a statement. It was generally reported at the capitol that Mr. Brandon would decline to accept the position under the circumstances which now exist. President Patterson and Governor Kilby contend that Mr. White is still secretary under a contract for one year, while the associate commissioners contend that the contract was executed by the president without the concurrence of either associate and is not binding. Mr. Brandon has been chief clerk of the state pension commission for several years.

## Directory Will Close Sept. 15th.

Announcement was made today by Southern Bell Telephone officials that the new directory will close on September 15, the forms going to press in Atlanta on that date. Manager Cassels requested all patrons desiring changes of numbers noted in the directory, to communicate with the company immediately.

### RAIN VISITS VALLEY

A splendid rain visited the Twin Cities late Thursday evening, extending southward to a point near Flint. The rain, the first of any consequence for several weeks came from the north-west attended by considerable thunder and lightning. The rain brought great relief, as it caused the mercury to descend several degrees, and did away with the dust nuisance for a time at least.

## DEATH LIST HIGH IN FOREST FIRES

(By Associated Press.)  
DULUTH, MINN., Aug. 18.—Fears that the death toll from forest fires raging in Northern Minnesota will go beyond the reported twelve, when additional advices are received from the flame swept areas, were expressed today by scores of refugees who are arriving here hourly. A fifteen mile northwesterly gale fanned the forest fires in the Kelsey Cotton-Whiteface districts and placed several towns of the district in a precarious position. All available men of the Duluth tank corps were ordered to Kelsey to conduct relief work at various points. It is reported that twelve have been killed and hundreds have been made homeless and all roads are reported to be blocked according to reports reaching the governor's office.

## GEORGIA SOLONS DEFEAT BOND ISSUE

(By Associated Press.)  
ATLANTA, GA., Aug. 19.—The 1922 session of the Georgia general assembly ended at 5 o'clock this morning, after an all night session, punctuated with stormy debate. Many bills of more or less importance were crowded out. The final session appropriated \$2,541,000 for Confederate pensions for the next fiscal year and wiped out the present distinction between old and new pensioners. The good roads bond issue for \$9,000,000 to match the federal appropriation was killed by the house.

## DECATUR'S SCHOOL BONDS ARE RE-SOLD

Decatur's \$125,000 school bond issue, which was sold recently at slightly above par and bearing six per cent interest, last night was re-sold for \$121,000 with the interest rate reduced from six per cent to five and one half per cent. Under the terms of the new sale the city will actually net about \$3,000 more from the sale during the period the bonds are sold for, than would have been netted under the terms of the original purchase.

Re-sale of the issue was necessary to conform with a decision rendered a few weeks ago by the supreme court, it was said, interpreting a statute passed by state legislature and involving the right of cities to issue bonds, bearing six per cent, for a period of more than ten years. Action taken by the Decatur council last night, it was declared, will remove all obstacles to the delivery of funds for construction of the new building. Following the supreme court decision, similar action is being taken by other Alabama cities, it is said.

### COTTON MARKET

(By International News Service.)  
NEW YORK, Aug. 17.—Cotton opened firm today with prices 29 to 40 points higher. A good deal of selling took place on the advance.

### Bible Thought for Today

HE REDEEMS AND CROWNS.—Bless the Lord, O my soul, and forget not all his benefits: who redeemeth thy life from destruction: who crowneth thee with loving kindness and tender mercies.—Psalm 103: 1, 4.

## Rheumatism at 60

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering to-night! The scourge of rheumatism has wrecked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never discolors the stomach, makes a blood enforcer. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can not get a bottle of S. S. S. yourself, out to get a bottle of S. S. S. now! Let somebody's mother begin to feel joyful again tonight. Maybe, maybe it's your mother. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical. How glorious you will feel, mother, when your rheumatism is all gone. Let S. S. S. do it. It will build you up, too!

## Southern Railway Wants Experienced Men For Shops

The following positions are open in the shops of this system:

Machinists	Sheet metal workers
Boilermakers	Electrical workers
